1. Copyright Statement

The following copyright notice MUST be included in all GGF documents:

"Full Copyright Notice

Copyright (C) Global Grid Forum (current year). All Rights Reserved.

This document and translations of it may be copied and furnished to others, and derivative works that comment on or otherwise explain it or assist in its implementation may be prepared, copied, published and distributed, in whole or in part, without restriction of any kind, provided that the above copyright notice and this paragraph are included on all such copies and derivative works. However, this document itself may not be modified in any way, such as by removing the copyright notice or references to the GGF or other organizations, except as needed for the purpose of developing Grid Recommendations in which case the procedures for copyrights defined in the GGF Document process must be followed, or as required to translate it into languages other than English.

The limited permissions granted above are perpetual and will not be revoked by the GGF or its successors or assignees."

1.1 Justification

GGF requires a copyright notice for several reasons. First, the copyright gives GGF the right to publish the whole document as-is in perpetuity. Second, the copyright allows others to republish the whole document as-is without obtaining permission (e.g. a document repository or mirror site). Third, the copyright permits translation of the whole document into other languages. Finally, the copyright permits the development of derivative works within the GGF process.

All other rights are retained by the authors.

2. Disclaimer

The following disclaimer must be included in all GGF documents:

"This document and the information contained herein is provided on an "As Is" basis and the GGF disclaims all warranties, express or implied, including but not limited to any warranty that the use of the information herein will not infringe any rights or any implied warranties of merchantability or fitness for a particular purpose."

2.1 Justification

The GGF relies on a diverse membership to produce document. The GGF does not have the resources to guarantee fitness or do an intellectual property search for possible infringement.

3. Intellectual Property Statement

The following IPR notice MUST be included in all GGF documents:

"Intellectual Property Statement.

The GGF takes no position regarding the validity or scope of any intellectual property or other rights that might be claimed to pertain to the implementation or use of the technology described in this document or the extent to which any license under such rights might or might not be available; neither does it represent that it has made any effort to identify any such rights. Copies of claims of rights made available for publication and any assurances of licenses to be made available, or the result of an attempt made to obtain a general license or permission for the use of such proprietary rights by implementers or users of this specification can be obtained from the GGF Secretariat.

The GGF invites any interested party to bring to its attention any copyrights, patents or patent applications, or other proprietary rights which may cover technology that may be required to practice this recommendation. Please address the information to the GGF Executive Director."

3.1 Justification

GGF intellectual property right management process is intended to mirror the intellectual property rights and procedures associated with the Internet Standards Process, as outlined in [1] section 10. The section above is a modified excerpt from [1].

In all matters of intellectual property rights and procedures, the intention is to benefit the Grid community and the public at large, while respecting the legitimate rights of others.

5. Intellectual Property Statement text

The GGF takes no position regarding the validity or scope of any intellectual property or other rights that might be claimed to pertain to the implementation or use of the technology described in this document or the extent to which any license under such rights might or might not be available; neither does it represent that it has made any effort to identify any such rights. Copies of claims of rights made available for publication and any assurances of licenses to be made available, or the result of an attempt made to obtain a general license or permission for the use of such proprietary rights by implementers or users of this specification can be obtained from the GGF Secretariat.

The GGF invites any interested party to bring to its attention any copyrights, patents or patent applications, or other proprietary rights which may cover technology that may be required to practice this recommendation. Please address the information to the GGF Executive Director.

6. Disclaimer

This document and the information contained herein is provided on an "As Is" basis and the GGF disclaims all warranties, express or implied, including but not limited to any warranty that the use of the information herein will not infringe any rights or any implied warranties of merchantability or fitness for a particular purpose.

7. Full Copyright Notice text

Copyright (C) Global Grid Forum (date). All Rights Reserved.

This document and translations of it may be copied and furnished to others, and derivative works that comment on or otherwise explain it or assist in its implementation may be prepared, copied, published and distributed, in whole or in part, without restriction of any kind, provided that the above copyright notice and this paragraph are included on all such copies and derivative works. However, this document itself may not be modified in any way, such as by removing the copyright notice or references to the GGF or other organizations, except as needed for the purpose of developing Grid Recommendations in which case the procedures for copyrights defined in the

GGF Document process must be followed, or as required to translate it into languages other than English.

The limited permissions granted above are perpetual and will not be revoked by the GGF or its successors or assignees.

8. Security

This document describes the Intellectual Property Statement and Copyright Notice that must be included in all GGF documents. This document does not define a GGF Service or Protocol, so there are no security attacks that are in scope. The inclusion of IP, Disclaimer and Copyright notices in GGF documents are required to defend against IP and Copyright issues as described above.
